SERIES**

2017  
2018

**Wednesday, February 13th, 2019  
12:15PM – Hampton Hall  
FREE EVENT - Open to the public**

Ratana Chuenpagdee is a Professor in Geography at Memorial University of Newfoundland, Canada. She is currently leading a major global research partnership, Too Big to Ignore, which aims at elevating the profile of small-scale fisheries and rectifying their marginalization in national and international policies. As part of this project, she's coordinating research and activities to support the implementation of the SSF Guidelines. Her research emphasizes a transdisciplinary approach to coastal, fisheries and ocean governance, focusing particularly on small-scale fisheries, marine protected areas, community-based management, and food security.

Fisheries and Marine Institute of  
Memorial University of Newfoundland  
155 Ridge Road, St. John's, NL

**Are you interested in learning about leading-edge research and initiatives involving the aquatic and marine ecosystems, aquaculture and fisheries?**
